To whom it may concern,

**SEAL (Seychelles) :- Reference**

M.Y. Samax (1996 - 55m Feadship) has just completed a winter / spring cruise around the Seychelles. We had guests onboard almost continuously for the entire period and traveled extensively throughout the island chain. The season was a great success and both the islands and the cruising were loved by all the guests without exception. Much of this success that can be attributed to the excellent shore side support that the yacht received from our agent – SEAL (Seychelles), Mr. Alastair Maiden and his entire team at SEAL played a pivotal role in our season and ensured that everything went smoothly and without a hitch.

This was Samax's first visit to the Seychelles and from the initial enquiry stage many months before hand Alastair has been at the end of a phone and happy to answer all questions and advise on all aspects of the Seychelles and yachting and the level of the industries infrastructure available to yachts.

I would strongly recommend any yacht Captain or Managers thinking of the Seychelles to contact SEAL first and I'm sure you will have as an enjoyable season as everyone onboard Samax as had.

With Regards,

Trevor Appleby  
Master MY Samax
