

To Whom it may concern

Titania arrived in the Seychelles late Dec 2012 and remained there until March 20<sup>th</sup> 2013. SEAL were the selected Agents to work on behalf of the vessel.

Whilst I only returned to the vessel at the beginning of March, I heard from the rest of the crew that SEAL had worked in a professional and efficient manner always striving to meet the high expectations of the vessel. Provisioning could sometimes be a bit tricky as everything was imported but the Agents always strived to meet our demands.

I had no problems with Customs clearances and Immigration as these were always handled professionally and swiftly by the SEAL team.

I will be using SEAL again if we return to the Seychelles next season and would recommend them to any vessels visiting the Seychelles

Kind Regards

Neil Evans
